| UK | | sterling | 1.118 Octane) 1.188 (98 Octane) | 1.137 | Yes |

Prices shown are per litre in local currency.

* In most countries Lead Replacement Petrol already contains the necessary additive but in Austria, Germany, some parts of the Netherlands and Switzerland a lead substitute additive "Benzin additive/ersatz blei" can be bought at the petrol stations and added to the fuel tanks of cars which do not run on unleaded petrol. We have been advised that 10ml will treat 10 litres of petrol. It is the same additive as used in the UK.
